OVERVIEW

User-centric Senior Product Designer on a mission to leverage **6+ years of international experience** in checkout, payments and localisation to help **businesses expand** into new markets while forming a **deeper connection** with their **customers**.

Always seeking to make **paying faster and simpler**,

I redesigned Hyundai Department Store's checkout, which cut checkout time from **42 to 6 seconds** and increased purchase conversion from **28% to 75%**.

With a genuine passion for **local cultural nuances**, I have a proven track record of fitting **one global design standard** to many markets, including LG.com's **72 markets** and **Arabic right-to-left** layouts for Hyundai.com.

CORE STRENGTHS

▶ CHECKOUT & PAYMENT UX
Cut checkout time from **42 to 6 seconds for 1M+ customers**, increasing purchase conversion from **28% to 75%.**

▶ GLOBAL LOCALIZATION & DESIGN SYSTEMS
Moved LG.com's **72 markets** from separate templates onto **one component system** and **built Arabic right-to-left** layouts for Hyundai.com.

▶ HIGH-FIDELITY AI PROTOTYPING
Took an FX dashboard from problem definition to a working MVP in one week.

EDUCATION & AWARDS

BACHELOR OF FINE ARTS IN FASHION DESIGN
Ewha Womans University
Seoul, South Korea | Mar 2010 – Feb 2016

AWARDS
IF DESIGN 2023 KIA Motors BI & CI Design System
K-DESIGN 2022 Hyundai Engineering & Construction

FEATURED AI PROJECT

EXCHANGE RATE INTELLIGENCE DASHBOARD

Product Designer & Builder | Personal Project
View Project

- Designed, built and deployed a working **multi-currency dashboard in one week**, using Claude, ChatGPT and OpenAI Codex for high-fidelity prototyping.
- Designed a KRW-based dashboard that brings exchange rates, bank fees, live news and target-rate alerts **into one workflow** for comparing currencies.
- I**ntegrated FX, news and messaging APIs** automated exchange-rate updates every **30 minutes** and daily currency summaries via email and messaging platforms.

Technical Tools: Codex, Claude, ChatGPT, VS Code, GitHub, Vercel

EXPERIENCE

SENIOR PRODUCT DESIGNER — Apr 2023 – Jun 2026

Hyundai Department Store (The Hyundai Hi), Seoul

My core mission: Led end-to-end product design for The Hyundai Hi app's **checkout and payments (1M+ customers)**, **partnering** with product managers and engineers through **launch and iteration**.

- Shipped a bottom-sheet checkout that cut checkout time from **42 to 6 seconds** and increased purchase conversion by **47** percentage points, from **28% to 75%.**
- Identified that **17% of orders (43 of 250)** were paid, cancelled and repurchased after launch, then i**nterviewed 10 customers** and **tested three discount displays** for the next release.
- Developed a short-form video shopping experience with in-video purchasing, **contributing to 50% higher sales** than live commerce in 2025.
- **Partnered with two agile teams** to maintain and improve design system components; conducted implementation **QA** to support consistent checkout and commerce experiences.

Tools & methods: Figma, GA4, A/B testing

SENIOR UX/UI DESIGNER — Jun 2019 – Dec 2022

Saltcake (Design Agency), Seoul

My core mission: Led UX/UI, localization and design system projects for Hyundai Motor, LG Electronics, Kia, SMEG and LEGOLAND.

- Established a localisation-ready design system for Hyundai Motor in **20 markets** and **2 languages** (Arabic right-to-left and English), informed by **102 dealers** and operators **across 17 markets**.
- Created scenario-based AEM component guides for regional operators, **reducing page build time by 40%** (from 25 to 15 minutes).
- Replaced **72 separate LG Electronics market** templates with one component system (global, localisable and optional modules), which enabled the **UK site launch** (lg.com/uk).
- Collaborated with international, **cross-functional stakeholders** and facilitated a **workshop with LG's US design teams to align the global design system** for the UK market.

Technical Tools: Figma, Adobe Creative Cloud, Jira, AEM

FASHION DESIGNER — Jan 2016 – Jun 2018

New Balance China (Eland China)

Conducted field **research and customer interviews** across Asian markets, resulting in a **120%+ sales increase** within six months.
