Senior Product Designer with **7+ years of experience** designing and scaling digital products across commerce, payments and global platforms. Experienced in simplifying complex user journeys, including **checkout and payment experiences**, through user research, rapid prototyping, experimentation and data-led design.

Led product and design-system initiatives across international markets, including localisation-ready experiences spanning **20 markets**. Strong cross-functional partner to Product, Engineering and Marketing, with a track record of translating user needs and business complexity into scalable, high-quality product experiences.

FEATURED AI PROJECT

Exchange Rate Intelligence Dashboard, Product Designer and Builder — April 2023 - Jun 2026

Designed and built an **AI-assisted financial decision** support product for businesses and investors managing large cross border FX transactions.

- Took the product from problem definition and UX concept to **functional MVP in one week**, using **AI-assisted prototyping and development**.
- Designed a unified dashboard combining live exchange rates, fee comparisons, conversion data, and economic news to simplify a fragmented financial workflow.
- Integrated APIs to **automate 30 minute data updates** and daily market briefings.
- Used **OpenAI Codex, Claude, VS Code, GitHub and Vercel** across the design and development workflow.

EXPERIENCE

Senior Product Designer, Hyundai Department — Jun 2019 - Dec 2022

Led product design across Hyundai's **omnichannel commerce and payment ecosystem**, partnering with Product, Engineering, and Marketing to simplify complex customer journeys and improve product performance across a platform serving **1M+** customers.

- Led a platform-wide redesign across two agile teams, establishing scalable design systems and improving collaboration between Design, Marketing and Engineering.
- Redesigned and iterated the checkout and payment journey using GA4 behavioural analysis, A/B testing and high-fidelity Figma prototypes, increasing purchase conversion by **75%** and reducing checkout time from **42 seconds to 6 seconds**.
- Identified customer drop-off within the commerce journey and designed a short-form video shopping experience integrating product discovery, purchasing and customer-service functionality, contributing to **50% annual sales growth**.
- Directed UX strategy for a unified platform serving **1M+ customers**, overseeing design-system implementation and QA to maintain consistency and quality across services.
- Used customer behaviour, experimentation and iterative prototyping to validate design decisions and translate complex commerce requirements into simpler customer experiences.

Senior UX/UI Designer - Saltcake Design Agency Jan 2018 - Jun 2019

Led UX/UI, localisation and design system initiatives for global brands including Hyundai Motor, LG Electronics, KIA, SEMG and LEGOLAND, collaborating with **international stakeholders** to create scalable experiences across markets.

Hyundai Motor Design System [Live demo: hmc.saltcake.com](hmc.saltcake.com)

- Designed and scaled a **localisation ready design system** in Figma and AEM across **20 international markets**, including five European countries.
- Created reusable patterns and components that maintained global consistency while accommodating local market requirements.

LG Electro Localisation www.lg.com/uk/

- Established shared design principles and component libraries supporting **collaboration between global and local teams** and enabling UK market expansion.
- Facilitated a design **workshop with LG's US headquarters** to align the UK digital experience with its global design system.

KIA Motors BI & CI Design System

- Helped develop a **scalable brand framework** connecting internal teams and external partners across digital and physical touchpoints; the work was subsequently recognised with an **iF Design Award**.

Fashion designer - New Balance China

- Conducted field research and user interviews across Asian markets, translating customer insights into product decisions that contributed to a **120%+ sales** increase within six months.
- Researched emerging consumer and sports-fashion trends across key Asian markets to inform product strategy and design.

CORE SKILLS

Product Design · Global & Localised Experiences · Checkout & Payment UX · UX Strategy · User Research · High-Fidelity Prototyping · Figma · AI-Assisted Prototyping · Design Systems · Data-Led Experimentation · A/B Testing · GA4 · Responsive Web & App Design · Cross-Functional Collaboration · Accessibility / WCAG 2.1

EDUCATION

Ewha Womans University

Bachelor's Degree in Fashion Design

2020 - 2026

AWARDS

iF DESIGN KIA Motor · BI/CI Design System

K-DESIGN Hyundai Engineering & Construction
